Thank you for your understanding as we complete this necessary building system testing.

### Fireplace Pilot Light - Off For Summer?

Have you turned off your gas fireplace pilot light for the summer? Leaving the pilot light burning during long periods of non-use wastes gas and produces unnecessary additional heat inside your Unit. Please check this and turn off that pilot flame - it's a simple process!

### Peloton Movie Night - "The Florida Project" - Monday, July 16 at 7:00 pm

Our next movie **Monday night, July 16, 2018, at 7 pm**, will be "The Florida Project" (2017), directed by Sean Baker. This film was on many critics' best movies lists for 2017 and 8-year old Brooklyn Prince got rave reviews while Willem Dafoe was nominated Best Supporting Actor. Warm, winning and gloriously alive, Sean Baker's The Florida Project is a deeply moving and unforgettably poignant look at childhood. Set on a stretch of highway just outside the imagined utopia of Disney World, The Florida Project follows 6-year old Moonee (Brooklyn Prince in a stunning breakout turn) and her rebellious mother Halley (Bria Vinai, another major discovery) over the course of a single summer. I think this is a movie for everyone. See you Monday night at the movies in the Community Center Theatre!
