Surveillance Camera Installation Update - Bldgs E&F + Garage

The installation of video surveillance cameras for Bldgs E&F, and in the underground parking garage under Bldgs E&F, is well underway, and now scheduled to be completed by the end of next week. These cameras will provide video surveillance coverage in these areas where no cameras had previously been installed, and with the same coverage as we now have in Bldgs C&D and in the parking garage under those buildings.

Verizon Cell Antenna Questions?

We will be arranging a community meeting soon with Verizon representatives to have them present to attendees the details on the cell antennas installed under the Association's lease with Verizon (2 on the Community Center, and 1 on Bldg D facing east). If you have questions or concerns you would like to have addressed at this future meeting, please email them to your Manager Tim at tbennett@ehammersmith.com, and we will provide them to Verizon.

Community News

Peloton Movie Night - "Norma Rae" - Monday, July 30 at 7:00 pm

In consideration of the Supreme Court's recent decisions to shred decades old laws protecting workers rights to organize and bargain collectively for fair working conditions and fair wages, it's time for another look at "Norma Rae" (1979). Sally Field won the Academy Award for best actress in this heart felt, stirring drama inspired by the life of Crystal Lee Sutton who worked in a textile mill in North Carolina and was fired for her efforts to organize a union at the mill. The film was also nominated for Best Picture. **Monday, July 30 at 7PM** in Community Center theater. (The Movie Club.)

US Postal Service in Bldgs D & F Mail Rooms - Complaints?

If you see packages or other US Mail left out on the counter of the mail rooms, please email the Management office and we will file a formal complaint with the USPS. We have already lodged two complaints based on our observations, and with that are hoping to improve the USPS service at The Peloton.

Bike Locks - Watch for Other Bikes

When locking your bike to one of the community bike racks, please be sure to lock only your bike and not loop the cable around any other bikes. We've received a couple of recent reports of residents who've been unable to free their bikes from the racks due to this happening.

Pet Policy Reminder - Avoid Nuisances to Others

As a Peloton dog owner, it is your responsibility to adhere to the Association's Policy Regarding Pets, including not allowing your dog to be a "nuisance" as defined in the Policy. This includes the more obvious requirement of cleaning up after your dog, but also that your dog must be on a leash and in your control at all times it is outside of your Unit. This leash requirement includes the common hallways and elevators. If you own a larger dog, please be conscious of other residents (and their dogs) and use the extra effort it takes to control and keep close to you a larger dog so as not to startle or frighten others. Your neighbors will appreciate your thoughtfulness in this regard.
