Next Defect Repair Committee Meeting - Tuesday, March 12, 2019, 4:00 PM

The next scheduled meeting of the Defect Repair Committee will be held on Tuesday, March 12, 2019, at 4:00 pm, in the Community Center 2nd Floor Meeting Room. We invite and encourage you to attend!

Water Heater Replacements Require Association Approval

Please remember that all water heater replacements require Owners to submit a completed Architectural Change Application packet to the Association Management office for review and approval prior to installation of the water heater. There is a pre-approval document on file and in the document center on the Homeowner Portal that should be included with each such Application. Please also note that the Association is not allowing installation of tankless (on demand) water heaters at this time.

EcoPass Use - No-Car Options for Getting Around

Last month, the representatives of the City of Boulder Transportation Department presented in the Community Center Lounge to those Peloton residents in attendance on how to make the best use of your RTD EcoPass. Your EcoPass is a benefit of living at The Peloton, and we want you to know how to make the most of it. We worked with the City following that presentation to obtain an easy to read listing of some popular local destinations and how to get there using your EcoPass, and have attached it here. We hope you find this useful!

Trash Room Chute Doors - Please Operate Carefully

We have noted several trash room chute doors that have been damaged by apparently forcibly being opened while locked, necessitating repairs by Management. Please do not attempt to open the chute doors when they are locked off (and the red light is on) during trash removal periods. We appreciate your help to keep your Association costs down!
