

The Peloton
Special EBlast - 03.18.2020

**COVID-19 Response –
Additional Association Measures + Volunteer Contact Reminder**

Loose Undelivered Package Handling

As an additional COVID-19 response action to increase social distancing and reduce the chance of spreading the virus, we are now asking all Peloton Owners and residents to NOT handle other people's packages left in the Mail Rooms and condominium building entrances, unless expressly given permission by the package recipient to do so. As an interim solution to the undelivered package problem, we will have our Peloton Concierge Chance Kraegel (who has agreed to this) deliver undelivered packages to Unit doors during his shift, which starts at 5:00 PM and ends at 12:00 AM Monday - Friday. Chance will wear protective gloves and use hand sanitizer and wipes during this process. We will update the community later this week on staff availability to make these deliveries once per day during the weekend Concierge shifts.

Call for Volunteers

As a reminder, we are asking that any residents who wish to volunteer to provide assistance to neighbors during this pandemic send an email to the Board via enoyes@live.com, signifying their interest, availability and offered services. We ask that any resident who would appreciate having volunteer assistance to email this same address.

Out of an abundance of caution, we ask that resident volunteers not be in a higher risk category as defined by the CDC, including anyone 60 years of age or older. Thank you!
