COVID-19 Additional Response - PLEASE READ

FOR RESIDENT AND EMPLOYEE SAFETY, THE COMMUNITY CENTER IS CLOSED UNTIL FURTHER NOTICE, WITH NO LENDING OF FITNESS EQUIPMENT

The Board has received and denied some requests for limited use of the Community Center and for borrowing of Community Center fitness equipment. This denial is based in part on COVID-19 projections from health experts who, as of April 1, 2020, were of the opinion that this virus was so deadly and spread so easily that, "If we do things together well, almost perfectly" we will still have between 100,000 to 240,000 fatalities in the United States. (The projected worst-case scenario for doing nothing to control the virus would be U.S. fatalities in the range of 2,000,000.)

The experts also advise that we should all act as though everyone, including ourselves, has the COVID-19 virus.

Given what we are facing with COVID-19, the Board has decided that requests to use the Community Center facilities or to borrow its equipment during this pandemic should be denied because of the unacceptable risk that COVID-19 will find a way to exploit any communal use of those facilities or that equipment.

We appreciate your understanding as we work together to slow the spread.
